

Experience-based Usability Inspection Method

The full list of all 256 versions of combinations

No.	The same stakeholders?	The same context? (time, technology, purpose)	Purposeful use by the stakeholders?	Satisfied with the solution in a comparable situation?	Description of behavior by combination
1	yes	yes	yes	yes	Yes,
2	partly	yes	yes	yes	Some
3	no	yes	yes	yes	There is a different type of stakeholder that does fine. However, we don't have any information, whether
4	don't know	yes	yes	yes	There might be types of users who do fine. However, it's not known whether
5	yes	partly	yes	yes	In a slightly different context,
6	partly	partly	yes	yes	In a slightly different context, some
7	no	partly	yes	yes	There is a different type of stakeholder that does fine in a slightly different context. However, we don't have any information on whether
8	don't know	partly	yes	yes	There might be types of users who do fine in a slightly different context. However, it's not known whether
9	yes	no	yes	yes	There is a different context where
10	partly	no	yes	yes	There is a different context where some
11	no	no	yes	yes	There is a different type of stakeholder that, in a different context, does fine. However, we don't have any information on whether
12	don't know	no	yes	yes	There might be types of users who do fine in a different context. However, it's not known whether
13	yes	don't know	yes	yes	There is an unknown context where
14	partly	don't know	yes	yes	There is an unknown context where some
15	no	don't know	yes	yes	There is a different type of stakeholder that, in unknown context, does fine. However, we don't have any information on whether
16	don't know	don't know	yes	yes	There might be types of users who, in unknown context, do fine. However, it's not known whether
17	yes	yes	partly	yes	To an extent,

18	partly	yes	partly	yes	To an extent, some
19	no	yes	partly	yes	There is a different type of stakeholder that, to an extent, does fine. However, we don't have any information on whether
20	don't know	yes	partly	yes	There might be types of users who, to an extent, do fine. However, it's not known whether
21	yes	partly	partly	yes	In a slightly different context and to an extent,
22	partly	partly	partly	yes	In a slightly different context and to an extent, some
23	no	partly	partly	yes	There is a different type of stakeholder that, in a slightly different context and to an extent, does fine. However, we don't have any information on whether
24	don't know	partly	partly	yes	There might be types of users who, in a slightly different context and to an extent, do fine. However, it's not known whether
25	yes	no	partly	yes	In a different context and to an extent,
26	partly	no	partly	yes	In a different context and to an extent, some
27	no	no	partly	yes	There is a different type of stakeholder that, in a different context and to an extent, does fine. However, we don't have any information on whether
28	don't know	no	partly	yes	There might be types of users who, in a different context and to an extent, do fine. However, it's not known whether
29	yes	don't know	partly	yes	There is an unknown context where, to an extent,
30	partly	don't know	partly	yes	There is an unknown context where, to an extent, some
31	no	don't know	partly	yes	There is a different type of stakeholder that, in unknown context and to an extent, does fine. However, we don't have any information on whether
32	don't know	don't know	partly	yes	There might be types of users who, in unknown context and to an extent, do fine. However, it's not known whether
33	yes	yes	no	yes	The outcome is incorrect. Therefore it cannot be assumed that
34	partly	yes	no	yes	The outcome is incorrect. Therefore cannot be assumed that even some
35	no	yes	no	yes	There is a different type of stakeholder whose outcome is incorrect. However, we don't have any information on whether
36	don't know	yes	no	yes	There might be types of users whose outcome is incorrect. However, it's not known whether

37	yes	partly	no	yes	In a slightly different context, the outcome is incorrect. Therefore, it cannot be assumed that
38	partly	partly	no	yes	In a slightly different context, the outcome is incorrect. Therefore, it cannot be assumed that even some
39	no	partly	no	yes	There is a different type of stakeholder whose outcome is incorrect in a slightly different context. However, we don't have any information on whether
40	don't know	partly	no	yes	There might be types of users whose outcome is incorrect in a slightly different context. However, it's not known whether
41	yes	no	no	yes	In a different context, the outcome is incorrect. It cannot be assumed that, in our context,
42	partly	no	no	yes	In a different context, the outcome of some stakeholders' representatives is incorrect. It cannot be assumed that, in our context,
43	no	no	no	yes	There is a different type of stakeholder whose outcome in a different context is incorrect. However, we don't have any information on whether
44	don't know	no	no	yes	There might be types of users whose outcome is incorrect in a different context. However, it's not known whether
45	yes	don't know	no	yes	There is an unknown context where the outcome is incorrect. It cannot be assumed that, in our context,
46	partly	don't know	no	yes	There is an unknown context where the outcome of some stakeholders' representatives is incorrect. It cannot be assumed that, in our context,
47	no	don't know	no	yes	There is a different type of stakeholder whose outcome in unknown context is incorrect. However, we don't have any information on whether
48	don't know	don't know	no	yes	There might be types of users whose outcome, in unknown context, is incorrect. However, it's not known whether
49	yes	yes	don't know	yes	The outcome is unknown. Therefore, it cannot be assumed that
50	partly	yes	don't know	yes	The outcome is unknown. Therefore, it cannot be assumed that even some
51	no	yes	don't know	yes	There is a different type of stakeholder whose outcome is unknown. However, we don't have any information on whether
52	don't know	yes	don't know	yes	There might be types of users whose outcome is unknown. However, it's not known whether
53	yes	partly	don't know	yes	In a slightly different context, the outcome is unknown. Therefore, it cannot be assumed that
54	partly	partly	don't know	yes	In a slightly different context, the outcome is unknown. Therefore, it cannot be assumed that even some

55	no	partly	don't know	yes	There is a different type of stakeholder whose outcome in a slightly different context is unknown. However, we don't have any information on whether
56	don't know	partly	don't know	yes	There might be types of users whose outcome is unknown in a slightly different context. However, it's not known whether
57	yes	no	don't know	yes	In a different context, the outcome is unknown. Therefore, it cannot be assumed that, in our context,
58	partly	no	don't know	yes	In a different context, the outcome of some stakeholders' representatives is unknown. It cannot be assumed that, in our context,
59	no	no	don't know	yes	There is a different type of stakeholder whose outcome in a different context is unknown. However, we don't have any information on whether
60	don't know	no	don't know	yes	There might be types of users whose outcome is incorrect in an unknown context. However, it's not known whether
61	yes	don't know	don't know	yes	There is an unknown context where the outcome is unknown. It cannot be assumed that, in our context,
62	partly	don't know	don't know	yes	There is an unknown context where the outcome of some stakeholders' representatives is unknown. It cannot be assumed that, in our context,
63	no	don't know	don't know	yes	There is a different type of stakeholder whose outcome in unknown context is unknown. However, we don't have any information on whether
64	don't know	don't know	don't know	yes	There might be types of users whose outcome is unknown in an unknown context. However, it's not known whether
65	yes	yes	yes	partly	There is somewhat dissatisfaction with this, but yes,
66	partly	yes	yes	partly	There is somewhat dissatisfaction with this, but some
67	no	yes	yes	partly	There is a different type of stakeholder that does fine, but is somewhat dissatisfied with this. However, we don't have any information on whether
68	don't know	yes	yes	partly	There might be types of users who do fine, but are somewhat dissatisfied with this. However, it's not known whether
69	yes	partly	yes	partly	There is somewhat dissatisfaction with this, but in a slightly different context
70	partly	partly	yes	partly	There is somewhat dissatisfaction with this, but in a slightly different context some
71	no	partly	yes	partly	There is a different type of stakeholder that does fine in a slightly different context, but is still somewhat dissatisfied with this. However, we don't have any information on whether

72	don't know	partly	yes	partly	There might be types of users who do fine in a slightly different context, but are still somewhat dissatisfied with this. However, it's not known whether
73	yes	no	yes	partly	There is somewhat dissatisfaction with this, but in a different context
74	partly	no	yes	partly	There is somewhat dissatisfaction with this, but in a different context some
75	no	no	yes	partly	There is a different type of stakeholder that does fine in a different context, but is still somewhat dissatisfied with this. However, we don't have any information on whether
76	don't know	no	yes	partly	There might be types of users who do fine in a different context, but are still somewhat dissatisfied with this. However, it's not known whether
77	jah	don't know	yes	partly	There is somewhat dissatisfaction with this, but there is an unknown context where
78	partly	don't know	yes	partly	There is somewhat dissatisfaction with this, but there is an unknown context where some
79	no	don't know	yes	partly	There is a different type of stakeholder that does fine in an unknown context, but is still somewhat dissatisfied with this. However, we don't have any information on whether
80	don't know	don't know	yes	partly	There might be types of users who do fine in an unknown context, but are still somewhat dissatisfied with this. However, it's not known whether
81	yes	yes	partly	partly	There is somewhat dissatisfaction with this, but to an extent,
82	partly	yes	partly	partly	There is somewhat dissatisfaction with this, but to an extent, some
83	no	yes	partly	partly	There is a different type of stakeholder that, to an extent, does fine, but is still somewhat dissatisfied with that. However, we don't have any information on whether
84	don't know	yes	partly	partly	There might be types of users who, to an extent, do fine, but are still somewhat dissatisfied with this. However, it's not known whether
85	yes	partly	partly	partly	There is somewhat dissatisfaction with this, but in a slightly different context, to an extent,
86	partly	partly	partly	partly	There is somewhat dissatisfaction with this, but in a slightly different context, to an extent, some
87	no	partly	partly	partly	There is a different type of stakeholder that, in a slightly different context and to an extent, does fine but is still somewhat dissatisfied with this. However, we don't have any information on whether
88	don't know	partly	partly	partly	There might be types of users who, in a slightly different context and to an extent, do fine but are still somewhat dissatisfied with this. However, it's not known whether

89	yes	no	partly	partly	There is somewhat dissatisfaction with this, but in a different context, to an extent,
90	partly	no	partly	partly	There is somewhat dissatisfaction with this, but in a different context, to an extent, some
91	no	no	partly	partly	There is a different type of stakeholder that, in a different context and to an extent, does fine but is still somewhat dissatisfied with this. However, we don't have any information on whether
92	don't know	no	partly	partly	There might be types of users who, in a different context and to an extent, do fine but are still somewhat dissatisfied with this. However, it's not known whether
93	yes	don't know	partly	partly	There is an unknown context where to an extent and with somewhat dissatisfaction,
94	partly	don't know	partly	partly	There is an unknown context where to an extent and with somewhat dissatisfaction, some
95	no	don't know	partly	partly	There is a different type of stakeholder that, in an unknown context and to an extent, does fine but is still somewhat dissatisfied with this. However, we don't have any information on whether
96	don't know	don't know	partly	partly	There might be types of users who, in an unknown context and to an extent, do fine but are still somewhat dissatisfied with this. However, it's not known whether
97	yes	yes	no	partly	The outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
98	partly	yes	no	partly	The outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore, it cannot be assumed that even some
99	no	yes	no	partly	There is a different type of stakeholder whose outcome is incorrect, and they are somewhat dissatisfied. However, we don't have any information on whether
100	don't know	yes	no	partly	There might be types of users whose outcome is incorrect, and they are somewhat dissatisfied. However, it's not known whether
101	yes	partly	no	partly	In a slightly different context, the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
102	partly	partly	no	partly	In a slightly different context, the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that even some
103	no	partly	no	partly	There is a different type of stakeholder whose outcome in a slightly different context is incorrect, and they are somewhat dissatisfied. However, we don't have any information on whether
104	don't know	partly	no	partly	There might be types of users whose outcome in a slightly different context is incorrect, and they are somewhat dissatisfied. However, it's not known whether

105	yes	no	no	partly	In a different context, the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
106	partly	no	no	partly	In a different context, the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that even some
107	no	no	no	partly	There is a different type of stakeholder whose outcome in a different context is incorrect, and they are somewhat dissatisfied. However, we don't have any information on whether
108	don't know	no	no	partly	There might be types of users whose outcome in a different context is incorrect, and they are somewhat dissatisfied. However, it's not known whether
109	yes	don't know	no	partly	There is an unknown context where the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
110	partly	don't know	no	partly	There is an unknown context where the outcome is incorrect, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that even some
111	no	don't know	no	partly	There is a different type of stakeholder whose outcome in an unknown context is incorrect, and they are somewhat dissatisfied. However, we don't have any information on whether
112	don't know	don't know	no	partly	There might be types of users whose outcome in an unknown context is incorrect, and they are somewhat dissatisfied. However, it's not known whether
113	yes	yes	don't know	partly	The outcome is unknown, and there is somewhat dissatisfaction with this. Therefore, it cannot be assumed that
114	partly	yes	don't know	partly	The outcome is unknown, and there is somewhat dissatisfaction with this. Therefore, it cannot be assumed that even some
115	no	yes	don't know	partly	There is a different type of stakeholder whose outcome is unknown, and they are somewhat dissatisfied. However, we don't have any information on whether
116	don't know	yes	don't know	partly	There might be types of users whose outcome is unknown, and they are somewhat dissatisfied. However, it's not known whether
117	yes	partly	don't know	partly	In a slightly different context, the outcome is unknown, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
118	partly	partly	don't know	partly	In a slightly different context, the outcome is unknown, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that even some

119	no	partly	don't know	partly	There is a different type of stakeholder whose outcome in a slightly different context is unknown, and they are somewhat dissatisfied. However, we don't have any information on whether
120	don't know	partly	don't know	partly	There might be types of users whose outcome in a slightly different context is unknown, and they are somewhat dissatisfied. However, it's not known whether
121	yes	no	don't know	partly	In a different context, the outcome is unknown, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that
122	partly	no	don't know	partly	In a different context, the outcome is unknown, and there is somewhat dissatisfaction with this. Therefore it cannot be assumed that even some
123	no	no	don't know	partly	There is a different type of stakeholder whose outcome in a different context is unknown, and they are somewhat dissatisfied. However, we don't have any information on whether
124	don't know	no	don't know	partly	There might be types of users whose outcome in a different context is unknown, and they are somewhat dissatisfied. However, it's not known whether
125	yes	don't know	don't know	partly	There is an unknown context where the outcome is unknown, and there is somewhat dissatisfaction with this. It cannot be assumed that, in our context,
126	partly	don't know	don't know	partly	There is an unknown context where the outcome of some stakeholders' representatives is unknown, and they are somewhat dissatisfied. It cannot be assumed that, in our context,
127	no	don't know	don't know	partly	There is a different type of stakeholder whose outcome in an unknown context is unknown, and they are somewhat dissatisfied. However, we don't have any information on whether
128	don't know	don't know	don't know	partly	There might be types of users whose outcome in an unknown context is unknown, and they are somewhat dissatisfied. However, it's not known whether
129	yes	yes	yes	no	There is dissatisfaction with this, but yes,
130	partly	yes	yes	no	There is dissatisfaction with this, but some
131	no	yes	yes	no	There is a different type of stakeholder that does fine, but is dissatisfied with this. However, we don't have any information on whether
132	don't know	yes	yes	no	There might be types of users who do fine, but are dissatisfied with this. However, it's not known whether

133	yes	partly	yes	no	There is dissatisfaction with this, but in a slightly different context
134	partly	partly	yes	no	There is dissatisfaction with this, but in a slightly different context some
135	no	partly	yes	no	There is a different type of stakeholder that does fine in a slightly different context, but is still dissatisfied with this. However, we don't have any information on whether
136	don't know	partly	yes	no	There might be types of users who do fine in a slightly different context, but are still dissatisfied with this. However, it's not known whether
137	yes	no	yes	no	There is dissatisfaction with this, but in a different context
138	partly	no	yes	no	There is dissatisfaction with this, but in a different context some
139	no	no	yes	no	There is a different type of stakeholder that does fine in a different context, but is still dissatisfied with this. However, we don't have any information on whether
140	don't know	no	yes	no	There might be types of users who do fine in a different context, but are still dissatisfied with this. However, it's not known whether
141	yes	don't know	yes	no	There is dissatisfaction with this, but in an unknown context
142	partly	don't know	yes	no	There is dissatisfaction with this, but in an unknown context some
143	no	don't know	yes	no	There is a different type of stakeholder that does fine in an unknown context, but is still dissatisfied with this. However, we don't have any information on whether
144	don't know	don't know	yes	no	There might be types of users who do fine in an unknown context, but are still dissatisfied with this. However, it's not known whether
145	yes	yes	partly	no	There is dissatisfaction with this, but to an extent,
146	partly	yes	partly	no	There is dissatisfaction with this, but to an extent, some
147	no	yes	partly	no	There is a different type of stakeholder that, to an extent, does fine, but is still dissatisfied with that. However, we don't have any information on whether
148	don't know	yes	partly	no	There might be types of users who, to an extent, do fine, but are still dissatisfied with this. However, it's not known whether
149	yes	partly	partly	no	There is dissatisfaction with this, but in a slightly different context, to an extent,
150	partly	partly	partly	no	There is dissatisfaction with this, but in a slightly different context, to an extent, some

151	no	partly	partly	no	There is a different type of stakeholder that, in a slightly different context and to an extent, does fine but is still dissatisfied with this. However, we don't have any information on whether
152	don't know	partly	partly	no	There might be types of users who, in a slightly different context and to an extent, do fine but are still dissatisfied with this. However, it's not known whether
153	yes	no	partly	no	There is dissatisfaction with this, but in a different context, to an extent,
154	partly	no	partly	no	There is dissatisfaction with this, but in a different context, to an extent, some
155	no	no	partly	no	There is a different type of stakeholder that, in a different context and to an extent, does fine but is still dissatisfied with this. However, we don't have any information on whether
156	don't know	no	partly	no	There might be types of users who, in a different context and to an extent, do fine but are still dissatisfied with this. However, it's not known whether
157	yes	don't know	partly	no	There is an unknown context where to an extent and with dissatisfaction,
158	partly	don't know	partly	no	There is an unknown context where to an extent and with dissatisfaction, some
159	no	don't know	partly	no	There is a different type of stakeholder that, in an unknown context and to an extent, does fine but is still dissatisfied with this. However, we don't have any information on whether
160	don't know	don't know	partly	no	There might be types of users who, in an unknown context and to an extent, do fine but are still dissatisfied with this. However, it's not known whether
161	yes	yes	no	no	The outcome is incorrect, and there is dissatisfaction with this. Therefore it cannot be assumed that
162	partly	yes	no	no	The outcome is incorrect, and there is dissatisfaction with this. Therefore, it cannot be assumed that even some
163	no	yes	no	no	There is a different type of stakeholder whose outcome is incorrect, and they are dissatisfied. However, we don't have any information on whether
164	don't know	yes	no	no	There might be types of users whose outcome is incorrect, and they are dissatisfied. However, it's not known whether
165	yes	partly	no	no	In a slightly different context, the outcome is incorrect, and there is dissatisfaction with this. Therefore it cannot be assumed that
166	partly	partly	no	no	In a slightly different context, the outcome is incorrect, and there is dissatisfaction with this. Therefore it cannot be assumed that even some

167	no	partly	no	no	There is a different type of stakeholder whose outcome in a slightly different context is incorrect, and they are dissatisfied. However, we don't have any information on whether
168	don't know	partly	no	no	There might be types of users whose outcome in a slightly different context is incorrect, and they are dissatisfied. However, it's not known whether
169	yes	no	no	no	In a different context, the outcome is incorrect, and there is dissatisfaction with this. Therefore it cannot be assumed that
170	partly	no	no	no	In a different context, the outcome is incorrect, and there is dissatisfaction with this. Therefore it cannot be assumed that even some
171	no	no	no	no	There is a different type of stakeholder whose outcome in a different context is incorrect, and they are dissatisfied. However, we don't have any information on whether
172	don't know	no	no	no	There might be types of users whose outcome in a different context is incorrect, and they are dissatisfied. However, it's not known whether
173	yes	don't know	no	no	There is an unknown context where the outcome is incorrect, and there is dissatisfaction with this. It cannot be assumed that, in our context,
174	partly	don't know	no	no	There is an unknown context where the outcome of some stakeholders' representatives is incorrect, and they are dissatisfied. It cannot be assumed that, in our context,
175	no	don't know	no	no	There is a different type of stakeholder whose outcome in an unknown context is incorrect, and they are dissatisfied. However, we don't have any information on whether
176	don't know	don't know	no	no	There might be types of users whose outcome in an unknown context is incorrect, and they are dissatisfied. However, it's not known whether
177	yes	yes	don't know	no	The outcome is unknown, and there is dissatisfaction with this. Therefore, it cannot be assumed that
178	partly	yes	don't know	no	The outcome is unknown, and there is dissatisfaction with this. Therefore, it cannot be assumed that even some
179	no	yes	don't know	no	There is a different type of stakeholder whose outcome is unknown, and they are dissatisfied. However, we don't have any information on whether
180	don't know	yes	don't know	no	There might be types of users whose outcome is unknown, and they are dissatisfied. However, it's not known whether
181	yes	partly	don't know	no	In a slightly different context, the outcome is unknown, and there is dissatisfaction with this. Therefore it cannot be assumed that
182	partly	partly	don't know	no	In a slightly different context, the outcome is unknown, and there is dissatisfaction with this. Therefore it cannot be assumed that even some

183	no	partly	don't know	no	There is a different type of stakeholder whose outcome in a slightly different context is unknown, and they are dissatisfied. However, we don't have any information on whether
184	don't know	partly	don't know	no	There might be types of users whose outcome in a slightly different context is unknown, and they are dissatisfied. However, it's not known whether
185	yes	no	don't know	no	In a different context, the outcome is unknown, and there is dissatisfaction with this. Therefore it cannot be assumed that
186	partly	no	don't know	no	In a different context, the outcome is unknown, and there is dissatisfaction with this. Therefore it cannot be assumed that even some
187	no	no	don't know	no	There is a different type of stakeholder whose outcome in a different context is unknown, and they are dissatisfied. However, we don't have any information on whether
188	don't know	no	don't know	no	There might be types of users whose outcome in a different context is unknown, and they are dissatisfied. However, it's not known whether
189	yes	don't know	don't know	no	There is an unknown context where the outcome is unknown, and there is dissatisfaction with this. It cannot be assumed that, in our context,
190	partly	don't know	don't know	no	There is an unknown context where the outcome of some stakeholders' representatives is unknown, and they are dissatisfied. It cannot be assumed that, in our context,
191	no	don't know	don't know	no	There is a different type of stakeholder whose outcome in an unknown context is unknown, and they are dissatisfied. However, we don't have any information on whether
192	don't know	don't know	don't know	no	There might be types of users whose outcome in an unknown context is unknown, and they are dissatisfied. However, it's not known whether
193	yes	yes	yes	don't know	Satisfaction with this is unknown, but yes,
194	partly	yes	yes	don't know	Satisfaction with this is unknown, but some
195	no	yes	yes	don't know	There is a different type of stakeholder that does fine, but satisfaction with this is unknown. However, we don't have any information on whether
196	don't know	yes	yes	don't know	There might be types of users who do fine, but satisfaction with this is unknown. However, it's not known whether
197	yes	partly	yes	don't know	Satisfaction with this is unknown, but in a slightly different context
198	partly	partly	yes	don't know	Satisfaction with this is unknown, but in a slightly different context some

199	no	partly	yes	don't know	There is a different type of stakeholder that does fine in a slightly different context, but satisfaction with this is unknown. However, we don't have any information on whether
200	don't know	partly	yes	don't know	There might be types of users who do fine in a slightly different context, but satisfaction with this is unknown. However, it's not known whether
201	yes	no	yes	don't know	Satisfaction with this is unknown, but in a different context
202	partly	no	yes	don't know	Satisfaction with this is unknown, but in a different context some
203	no	no	yes	don't know	There is a different type of stakeholder that does fine in a different context, but satisfaction with this is unknown. However, we don't have any information on whether
204	don't know	no	yes	don't know	There might be types of users who do fine in a different context, but satisfaction with this is unknown. However, it's not known whether
205	yes	don't know	yes	don't know	Satisfaction with this is unknown, but in an unknown context
206	partly	don't know	yes	don't know	Satisfaction with this is unknown, but in an unknown context some
207	no	don't know	yes	don't know	There is a different type of stakeholder that does fine in an unknown context, but satisfaction with this is unknown. However, we don't have any information on whether
208	don't know	don't know	yes	don't know	There might be types of users who do fine in an unknown context, but satisfaction with this is unknown. However, it's not known whether
209	yes	yes	partly	don't know	Satisfaction with this is unknown, but to an extent,
210	partly	yes	partly	don't know	Satisfaction with this is unknown, but to an extent, some
211	no	yes	partly	don't know	There is a different type of stakeholder that, to an extent, does fine, but satisfaction with this is unknown. However, we don't have any information on whether
212	don't know	yes	partly	don't know	There might be types of users who, to an extent, do fine, but satisfaction with this is unknown. However, it's not known whether
213	yes	partly	partly	don't know	Satisfaction with this is unknown, but in a slightly different context, to an extent,
214	partly	partly	partly	don't know	Satisfaction with this is unknown, but in a slightly different context, to an extent, some
215	no	partly	partly	don't know	There is a different type of stakeholder that, in a slightly different context and to an extent, does fine, but satisfaction with this is unknown. However, we don't have any information on whether

216	don't know	partly	partly	don't know	There might be types of users who, in a slightly different context and to an extent, do fine, but satisfaction with this is unknown. However, it's not known whether
217	yes	no	partly	don't know	Satisfaction with this is unknown, but in a different context, to an extent,
218	partly	no	partly	don't know	Satisfaction with this is unknown, but in a different context, to an extent, some
219	no	no	partly	don't know	There is a different type of stakeholder that, in a different context and to an extent, does fine, but satisfaction with this is unknown. However, we don't have any information on whether
220	don't know	no	partly	don't know	There might be types of users who, in a different context and to an extent, do fine, but satisfaction with this is unknown. However, it's not known whether
221	yes	don't know	partly	don't know	Satisfaction with this is unknown, but in an unknown context, to an extent,
222	partly	don't know	partly	don't know	Satisfaction with this is unknown, but in an unknown context, to an extent, some
223	no	don't know	partly	don't know	There is a different type of stakeholder that, in an unknown context and to an extent, does fine, but satisfaction with this is unknown. However, we don't have any information on whether
224	don't know	don't know	partly	don't know	There might be types of users who, in an unknown context and to an extent, do fine, but satisfaction with this is unknown. However, it's not known whether
225	yes	yes	no	don't know	The outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that
226	partly	yes	no	don't know	The outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that even some
227	no	yes	no	don't know	There is a different type of stakeholder whose outcome is incorrect, and satisfaction with this is unknown. However, we don't have any information on whether
228	don't know	yes	no	don't know	There might be types of users whose outcome is incorrect, and satisfaction with this is unknown. However, it's not known whether
229	yes	partly	no	don't know	In a slightly different context the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that
230	partly	partly	no	don't know	In a slightly different context the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that even some
231	no	partly	no	don't know	There is a different type of stakeholder whose outcome in a slightly different context is incorrect, and satisfaction with this is unknown. However, we don't have any information on whether

232	don't know	partly	no	don't know	There might be types of users whose outcome in a slightly different context is incorrect, and satisfaction with this is unknown. However, it's not known whether
233	yes	no	no	don't know	In a different context, the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that
234	partly	no	no	don't know	In a different context, the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that even some
235	no	no	no	don't know	There is a different type of stakeholder whose outcome in a different context is incorrect, and satisfaction with this is unknown. However, we don't have any information on whether
236	don't know	no	no	don't know	There might be types of users whose outcome in a different context is incorrect, but satisfaction with this is unknown. However, it's not known whether
237	yes	don't know	no	don't know	In an unknown context, the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that
238	partly	don't know	no	don't know	In an unknown context, the outcome is incorrect, and satisfaction with this is unknown. Therefore it cannot be assumed that even some
239	no	don't know	no	don't know	There is a different type of stakeholder whose outcome in an unknown context is incorrect, and satisfaction with this is unknown. However, we don't have any information on whether
240	don't know	don't know	no	don't know	There might be types of users whose outcome in an unknown context is incorrect, and satisfaction with this is unknown. However, it's not known whether
241	yes	yes	don't know	don't know	The outcome and satisfaction with this is unknown. Therefore it cannot be assumed that
242	partly	yes	don't know	don't know	The outcome and satisfaction with this is unknown. Therefore it cannot be assumed that even some
243	no	yes	don't know	don't know	There is a different type of stakeholder whose outcome is unknown, and satisfaction with this is unknown. However, we don't have any information on whether
244	don't know	yes	don't know	don't know	There might be types of users whose outcome is unknown, and satisfaction with this is unknown. However, it's not known whether
245	yes	partly	don't know	don't know	In a slightly different context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that
246	partly	partly	don't know	don't know	In a slightly different context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that even some

247	no	partly	don't know	don't know	There is a different type of stakeholder whose outcome in a slightly different context and satisfaction with this is unknown. However, we don't have any information on whether
248	don't know	partly	don't know	don't know	There might be types of users whose outcome in a slightly different context and satisfaction with this is unknown. However, it's not known whether
249	yes	no	don't know	don't know	In a different context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that
250	partly	no	don't know	don't know	In a different context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that even some
251	no	no	don't know	don't know	There is a different type of stakeholder whose outcome and satisfaction in a different context is unknown. However, we don't have any information on whether
252	don't know	no	don't know	don't know	There might be types of users whose outcome and satisfaction in a different context is unknown. However, we don't have any information on whether
253	yes	don't know	don't know	don't know	In an unknown context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that
254	partly	don't know	don't know	don't know	In an unknown context the outcome and satisfaction with this is unknown. Therefore it cannot be assumed that even some
255	no	don't know	don't know	don't know	In an unknown context there is a different type of stakeholder whose outcome and satisfaction with this is unknown. However, we don't have any information on whether
256	don't know	don't know	don't know	don't know	In an unknown context might be types of users whose outcome and satisfaction with this is unknown. Therefore it's not known whether
257					As there is no comparable example, it's not known whether ¹
